## EDUCATION

---

**California State University, Fullerton**

*Bachelor of Science, Computer Science*

*Fullerton, CA*

Expected Graduation: Spring 2025

## SKILLS

- 
- **Programming Languages:** Python, C++, Java, JavaScript.
  - **Frameworks/Web Development:** HTML, CSS, SQL, Flask.
  - **Tools/Others:** Git, Visual Studio, Ubuntu/Linux, TensorFlow/Keras.

## WORK EXPERIENCE

---

**CIC | PCUBED, Intern**

June 2023 – July 2023

*CS Summer Research Project | Fullerton, CA*

- Conducted research on a data science-related topic with a faculty advisor.
- Programmed a project that predicted school performance based on the number of hands raised, resources that were visited, and announcements viewed.
- Optimized some neural networks using TensorFlow.

**Meta, Intern**

July 2022

*Career Insights Program | Remote Location*

- Collaborated in groups to analyze different solutions on how to attract younger audiences to Facebook's site platform.
- Presented ideas to Meta employees.
- Introduced to software used at Meta and machine learning methods.

## PROJECTS

---

**Portfolio**

May 2021- Present

- <https://agrnerd17.github.io/ameliegomez/>
- Personal website built using mostly HTML, CSS, and some JavaScript.
- Designed to display personal/school projects linked to GitHub account.

## CLUBS/ACTIVITIES

---

**Data Science and Machine Learning Club**

August 2022 - Present

- Expanded knowledge on data science applications and principles.
- Attended bi-weekly meetings and workshops on python basics.
